## **KYSER JOINS AMP AS ASSISTANT DEPUTY GENERAL COUNSEL**

**COLUMBUS:** American Municipal Power, Inc. (AMP) has announced the expansion of its legal team with the addition of a new Assistant Deputy General Counsel. Michael Kyser joined the AMP full-time staff on June 29<sup>th</sup>, working with long-time AMP Senior Vice-President and General Counsel John Bentine along with Deputy General Counsels, Rachel Gerrick and Lisa McAlister.

Prior to his new position, Mike was with the City of Toledo, Ohio Law Department, where he handled contract negotiations, labor and employment, litigation and regulatory compliance, city policies and procedures, arbitration and mediation for the city. During law school, Michael interned at the Ohio Attorney General's Office, Liebert Corporation and the Carlile, Patchen & Murphy law firm.

Keyser joins AMP staff  
July 1, 2015

Mike holds a bachelor of arts degree from The Ohio State University and a Juris Doctorate, Publicly Held Companies Concentration Certificate, from Capital University Law School. In his new capacity he will support Deputy General Counsels Rachel Gerrick and Lisa McAlister in representing AMP and advising its members on a wide variety of legal matters including transactions, construction contracts, records policies, general business and utility matters along with helping facilitate internal and external strategies including regulatory initiatives at the Federal Energy Regulatory Commission, PJM Interconnection and MidContinent ISO.

"Mike is a quality attorney and person that brings enthusiasm and experience to his new position. AMP and our members will certainly benefit from his expertise and we are thrilled to have him join our team," AMP General Counsel John Bentine said.

#####

#### **ABOUT AMP:**

American Municipal Power, Inc. is the nonprofit wholesale power supplier and services provider for 132 member municipal electric systems in the states of Ohio, Pennsylvania, Michigan, Virginia, Kentucky, West Virginia, Indiana, Maryland and Delaware. Combined these public utilities serve more than 625,000 customers. AMP members receive their power supply from a diversified resource mix that includes wholesale power purchases through AMP and the open market and energy produced at AMP and member-owned generating facilities utilizing fossil fuel, hydroelectric, wind and other renewable resources. The organization is focused on sustainability and increased use of renewable generation resources. AMP currently has four run-of-the-river hydroelectric projects under construction on the Ohio River. Combined these four projects will add more than 300 MW of new hydro capacity to the region. AMP is pursuing additional hydro, solar, wind and landfill gas projects. For additional information, visit AMP's Web site at [www.ampppartners.org](http://www.ampppartners.org).
