# About American Municipal Power, Inc. (AMP)

Formed in 1971, AMP is headquartered in Columbus, Ohio, with about 225 employees at its headquarters and generating facilities.

**AMP is the nonprofit wholesale power supplier and services provider** for more than 130 Members in the states of Indiana, Kentucky, Maryland, Michigan, Ohio, Pennsylvania, Virginia, West Virginia; as well as the Delaware Municipal Electric Corporation, a joint action agency with nine **Delaware** municipal members. Combined, these Member municipal electric utilities serve approximately 665,000 customers.

The organization is governed by a Board of Trustees that consists of 22 AMP Members — 21 elected by the Members or subgroups of Members, and DEMEC, on behalf of its nine member systems. Each elected Member then appoints a person to represent it on the Board.

# Why Become an MEP?

The AMP MEP program provides industry vendors and consulting firms with the opportunity to present their products and services to AMP Member communities. Participants in the MEP program gain access to AMP's Member Directory and are permitted to use that information to create a database for future marketing activities. Furthermore, all participants in the MEP program are permitted to disclose that they are an MEP and are given the opportunity to showcase their products and services at AMP events, such as the AMP Annual Conference and AMP Technical Services Conference.

## BENEFITS:

- 1 AMP Member Directory:** Access to AMP's digital Member Directory. The directory provides information about more than 130 Members in nine states.
- 2 Company Listing:** List your company along with a brief description of your products/services in the AMP Member Directory. This benefit provides exposure of the company's solutions to AMP Members.
- 3 Discounts:** Receive a discount on registration for the AMP Annual Conference (fall) and the AMP Technical Services Conference (spring).
- 4 Exhibit:** Gain the opportunity to exhibit at the AMP Annual Conference and AMP Technical Services Conference and to personally interact with AMP Members.
- 5 Sponsorship:** Participate in sponsorship opportunities at the AMP Annual Conference and the AMP Technical Services Conference to share your products and services.
- 6 Website:** Link your company's website on AMP's website to better connect with AMP Members.
- 7 Publications:** Receive AMP's weekly *Update* newsletter, which provides valuable industry and Member information.

“

Participating in AMP's MEP Program has made PowerSecure a valuable partner to AMP and its Member communities. Working with these communities, understanding their needs, and providing solutions has been invaluable for PowerSecure.

”

**Robert D. Tugwell**  
Vice President Public Utilities,  
PowerSecure, Inc.

# 2025 AMP Annual Conference Program and Exhibit Highlights

Take advantage of the opportunity to meet with AMP Members. The two-hour MEP Reception allows you to showcase your products and build relationships with municipal electric utility representatives from multiple states.
